CODE ENFORCEMENT ISSUE - NUISANCES

Trash debris alongside streets and in residential neighborhoods is an ongoing issue that Winder's Code Enforcement works to correct daily. With between 5-10 new nuisance cases each week, Code Enforcement remains extremely busy.

Trash and other debris is not only an eyesore, but it attracts rodents and other animals, and can become a health and safety concern for our citizens.

Construction debris and trash piles such as those in the below photos will not be picked up by the city nor the trash company. During eviction processes, landlords are required to dispose of trash appropriately, and of course, it is the responsibility of the property owner/tenant to dispose of piles of trash and other garbage properly.

The City of Winder works hard to keep the community an attractive place to live, and we ask our citizens to assist us in the process. If you see a pile of trash sitting alongside the road or in front of a property, please contact the City of Winder Code Enforcement office at (770) 867-3510 or go online here: <http://cityofwinder.com/government/planning-licensing-inspection/code-enforcement>.

The City of Winder Code of Ordinances on Nuisances is as follows:

Sec. 16-81.3. - Types of nuisances.

(13) The keeping of used or dilapidated furniture, appliances, machinery, bicycles, automobiles, automobile parts and other toys, junk, debris or other equipment that are either in an inoperable condition with an expired tag and/or are wholly or partially wrecked, junked or dismantled, upon premises which are not completely enclosed within a building or fence or enclosure free from public view.

(17) Garbage that is not placed in carts or cans at the curb.
