MAYOR David Maynard

CITY ADMINISTRATOR Donald Toms

City Of Winder

Letter of Transmittal

December 18, 2014

The Honorable Mayor David Maynard, Members of the City Council, and Citizens of the City of Winder

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report of the City of Winder, Georgia for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the City of Winder, Georgia. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Winder, Georgia has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Winder's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh its benefits, the City of Winder's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is accurate in all material respects and presented in a manner designed to fairly set forth the financial position and results of operations of the various funds of the City.

Clifton, Lipford, Hardison, & Parker, LLC, Macon, Georgia, a licensed firm of certified public accountants, has audited the City of Winder's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Winder for the fiscal year ended June 30, 2014, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and the significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Winder's financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report. The independent auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards is presented on page 143.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Winder's MD&A can be found immediately following the report of the independent auditors.

General Information

The City of Winder, Georgia, incorporated by an act of the Georgia General Assembly in 1894, is the county seat for Barrow County, Georgia. Originally incorporated as Jug Tavern in 1884, Winder was named in honor of John H. Winder, general manager of the Seaboard Railroad, for his contribution in bringing the railroad and related passenger station to the City. The railroad provided the City with mobility as well as cultural and economic advantages. The Seaboard Railroad for many years ran six passenger trains and eight freights through Winder each day. The City is located between Atlanta to the west, Athens to the east, Interstate 85 to the north and state highway 316 to the south.

The City operates under a mayor-council form of government with a six member elected council, a mayor elected at large, and an appointed professional city administrator. The Mayor and Council members serve overlapping four-year terms. The City Administrator handles daily administration and management, with policy and guidance provided by the Mayor and Council. The City provides a full range of services. These services include police and fire protection; natural gas; water; sanitary sewer; solid waste disposal; cultural and recreational activities; planning and zoning; and the construction and maintenance of highways, streets, sidewalks, and stormwater infrastructure. The City has been designated as a "Certified City of Ethics" by the Georgia Municipal Association. Around a third of the cities in Georgia have received this designation.

Fire taxes, Local Option Sales Tax and utility revenues primarily fund municipal operations. This allows the city to operate without a property tax, which means businesses and homeowners have a lower tax burden and a higher level of service than comparable communities in the state. The City has not assessed a property tax since 1977 other than for fire services.

Economic Condition and Outlook

The City of Winder is the largest city in Barrow County, and is the county seat. Barrow County is located in the center of Georgia's Golden Triangle and is the nucleus of research and technological advancements. In close proximity to Atlanta, Barrow County is just west of Athens and east of Gwinnett County. This central location, between four large employment and educational markets, makes Barrow County an escape from congested traffic and city noise. Like many other communities, Winder has seen a decline in residential growth over the last few years; however, Barrow County was among the top 20 fastest growing counties in the country during the last decade, and continues to attract new businesses to the area.

Fiscal Year 2014 brought a new addition to the City of Winder: The Chimneys Golf Course. The Chimneys was originally built by Eagle Greens Ltd. in 2002 on property owned by the City as part of the City's Land Application System (LAS) through a lease, development, and operating agreement with the City and the City of Winder Public Facilities Authority until February 2008. At that time, Chimneys GHC, LLC, purchased the lease agreement. Unfortunately, the golf industry took a big hit during the recession and in September 2013, the City of Winder's Public Facilities Authority exercised its first right of refusal in the buyout of the leasehold interest in the Chimneys Golf Course and deeded the course to the City of Winder. Because the City already owned the land, the Council decided it was in the best interest for the City of Winder.

Another major change for FY 2014 was the outsourcing of two departments: Public Works and Vehicle Maintenance. The City contracted with ESG to handle the Public Works department in February 2014. In July 2013, the City contracted with Akins Ford to handle all of the City's vehicle maintenance. The vehicle maintenance contract saved the City over \$83,000 in FY 2014 compared to FY 2013.

During Fiscal Year 2014, the City of Winder also voted to change its retirement plan from a defined benefit (DB) plan to a defined contribution (DC) plan for all newly hired employees. Any current, non-vested employees have until December 31, 2014, to decide whether to stay in the DB plan or move to the DC plan. In the DC plan, the City must contribute 3% of the employee's salary with a matching contribution up to an additional 3%. These changes to the retirement plan should help mitigate the unfunded liability over the next few years.

For FY 2014, the main funding for the operations of the City continues to come from the following primary sources: sales taxes, fire taxes, fines and forfeitures, licensing and permitting activities and utility profits.

Introductory Section

Year 2014 saw an increase in sales taxes and licensing and permitting activities which shows that our economy is slowly recovering from the recession felt over the last few years. The increase in charges for services were primarily due to the increase sales in natural gas because of a longer, colder winter than we have experienced recently and the new golf course revenues. The City's overall expenses increased slightly due to the purchase of the natural gas and the additional costs associated with running the Chimneys Golf Course. In all other areas, the City remained relatively stable in FY 2014 compared to FY 2013 because of management's continued due diligence for fiscal responsibility.

The City's overall utility customer base increased slightly over the past year. At June 30, 2014, the annual average number of water customers increased by 2.6%, and the annual average number of gas customers increase by 2.14% over FY 2013. Another factor in measuring the economic condition of a community is its overall property fair market value (FMV), and Winder's overall FMV increased by 4.17% over FY 2013 which is the first increase in values since FY 2008. Sales tax collections in 2014 increased over FY 2013 collections which almost equaled the amount of sales taxes the City received in 2008. The increase is partially due to a renegotiated LOST (Local Option Sales Tax) agreement with Barrow County and the other cities in Barrow County which increased the City of Winder's distribution by 7.4%. There has been an increase in the number of water and sewer taps and building permits over the last fiscal year compared to the prior years. Even though these numbers are not close to pre-recession numbers, these factors indicate that our local government and community have weathered the worst part of the recession and that a turnaround in the local economy is within sight. The City of Winder continues to re-evaluate costs on a monthly basis and will adjust the budget as necessary. As the City continues its commitment to excellence and fiscal responsibility, it is moving forward with several important projects.

Major Initiatives

Utilities

During FY 2014, the City of Winder and the City of Auburn partnered to redevelop a rock quarry that is located in Barrow County into a 1.1 billion gallon pump storage reservoir. The City of Winder's portion of the project is currently projected to cost approximately \$20.8 million. The City of Auburn has received funding from the Governor's Water Supply Program (GWSP), and the City of Winder plans to fund its portion with a loan from Georgia's Drinking Water State Revolving Fund which is administered by GEFA (Georgia Environmental Finance Authority).

The City continues its Fixed Network project which replaces the City's current drive-by meter reading system with the Sensus Flex Net Automatic reading system for our utility customers. This project is primarily funded with a \$3,000,000 GEFA loan with an interest rate of .70% for 10 years.

The City's Gas Department was awarded the American Public Gas Association Safety Award and the H.E.A.T. Award with donations totaling over \$4,200 towards the Georgia H.E.A.T. Program.

Community Center, Cultural Arts Center and WTV 21

The City of Winder's Community Center is available for rent by the general public, businesses, and non-profit organizations for a variety of events ranging from seminars, fundraisers, banquets, and large scale weddings. During 2014, over 300 events were held in the Community Center.

The City of Winder's Cultural Arts Center hosted almost 390 individual events and the Southern Circuit Tour of Independent Filmmakers Tour during FY 2013-2014 for its 4th year in a row. The Center houses the Colleen O Williams Theater, WTV21 offices and studio, provided many opportunities for the citizens of Winder and Barrow County to enjoy many concerts, plays, and Children's Summer Drama Camp. The Center is proud to be a Partner in Education with Winder-Barrow High, Apalachee High, and Russell Middle schools.

WTV21 produced 3 original programs: *Talk of the Town with Karen Allen*, Barrow County Board of Commissioner meetings, and City of Winder City Council meetings. Channel 21 also airs special local events held throughout the year, such as the Winder festivals and Christmas parade, along with other programs received via satellite from third-party sources. During 2014, *Talk of the Town* won an Honorable Mention for Best Talk Show in the under \$200k budget category from the National Association

of Telecommunications Officers and Advisors (NATOA). This is the 5th consecutive year that WTV21's *Talk of the Town* has won an award from NATOA.

Public Safety

During FY 2014, the Winder Police Department was awarded two grants:

- The Small Agency Grant from the Governer's Office of Highway safety in the amount of \$10,000 to be used for the purchase of items to help with traffic enforcement. Winder was selected as part of their active involvement and membership in the Piedmont area Traffic Enforcement Network (P.A.T.E.N.).
- The Wrongful Conviction Grant from the Criminal Justice Coordinating Council in the amount of \$10,000 to be used to purchase audio and video recording equipment for the two interview rooms at the Police Department.

The Winder Fire Department purchased a new Emergency-One 1500 GPM pumper fire truck from FireLine, Inc. The City financed the purchase with a capital lease for a term of 10 years. The Fire Department also received 1st place for the "Give Burn the Boot Highest per Capita" for money collected for the Georgia Firefighters Burn Foundation.

Our police and fire officers continue to work closely with the schools, Boys and Girls Club and other community organizations to provide a positive experience for the children of Winder. These officers raise funds for the police department's annual "Christmas with a Cop" program and the fire department's "Empty Stocking Fund" program which benefit many local children at Christmas.

Public Works

The City of Winder Public Works Department saw major changes during FY 2014, as ESG, Inc., began operating this department through a contract with the City. ESG, Inc. has been concentrating its efforts on the maintaining the City's buildings, cleaning and maintaining the City's right of ways, and revitalizing the City's sidewalks, roads, common areas, and stormwater system. During FY 2014, some of these projects included the following:

- The City of Winder's Streetscape program, which began during FY 2013 with funding from the Georgia Department of Transportation's (GDOT) traffic enhancement grant, was completed in May 2014. In FY 2010, the City was awarded a \$500,000 grant for this streetscape project which consists of enhancements for Broad Street from the Post Office to the Train Depot. During FY 2011, the City was awarded another \$500,000 from the GDOT for this project. This project is, by far, the biggest investment in the downtown area's history. Prior to beginning the Streetscape Project, the City relocated the water lines, sewer lines, and gas lines from Broad Street.
- The City received \$118,961 from the Local Maintenance and Improvement Grant Program (LMIG) from the Georgia Department of Transportation (GDOT) for road improvements in Winder. The City added the required 30% and repaved 7 different roads in Winder during FY 2014.

Budgeting Controls

The annual budget serves as the foundation for the City of Winder's financial planning and control. The annual budget process begins with the City Administrator, Finance staff and department heads working together to analyze funding needs. Prior to May 1, the Finance Department prepares a draft budget for the City Administrator. After reviewing the draft budget and meeting with the departments, the City Administrator and Finance staff prepares a Proposed Budget. The Mayor presents the Proposed Budget to City Council in May. The Council conducts public hearings in May and June, and adopts budgeted revenues and appropriations for the upcoming fiscal year by ordinance no later than June 30, the close of the City's fiscal year. The budget is prepared both by fund, function (e.g. public safety) and department (e.g. police). The Budget Officer is permitted to transfer appropriations within a department. Transfers between departments and subsequent budgetary amendments require the approval of the City Council.

As demonstrated by the statements and schedules included in the financial section of this report, the City continues meeting its responsibility for sound financial management.

Introductory Section

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Winder for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2013. This is the 12th consecutive year that the City has received this award. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA to determine its eligibility for another Certificate of Achievement for the fiscal year ended June 30, 2014.

The GFOA has presented an Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) to the City of Winder for its PAFR for the fiscal year ended June 30, 2013. This is the 8th consecutive year that the City has received this distinguished award. The Award of Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a PAFR whose contents conform to program standards of creativity, presentation, understandability, and reader appeal.

An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA to determine its eligibility for another Certificate of Achievement for the fiscal year ended June 30, 2014.

The GFOA has presented a Distinguished Budget Presentation Award to the City of Winder for its annual budget for the fiscal year beginning July 1, 2013. This is the 4th year that the City has received this distinguished award. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

A Distinguished Budget Presentation Award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the dedicated services and hard work of a highly qualified staff in the Finance Department. Each member of the department has a sincere appreciation for the contributions made in the preparation of this report and acknowledges the efforts of other departments who provided information that helped to make the report far more than a presentation of financial statements.

Finally, we acknowledge the Mayor, the City Council, and the City Administrator for their unfailing support, leadership, and professional conservative financial management.

Sincerely,

Of while W Hordeson

CITY OF WINDER, GEORGIA COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended

June 30, 2014

Financial Section

Independent Auditor's Report

Management's Discussion and Analysis

Basic Financial Statements

Notes to the Financial Statements

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of City Council City of Winder, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Winder, Georgia as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

1503 Bass Road P.O. Box 6315 Macon, Georgia 31208-6315 Member of American Institute of Certified Public Accountants

468 South Houston Lake Road Warner Robins, Georgia 31088 Honorable Mayor and Members of City Council City of Winder, Georgia Page Two

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Winder, Georgia as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison on pages 15 through 26 and pages 82 through 88 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Winder, Georgia's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, budgetary comparison schedules, the schedules of projects constructed with special sales tax proceeds and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, budgetary comparison schedules, the schedules of projects constructed with special sales tax proceeds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in

Honorable Mayor and Members of City Council City of Winder, Georgia Page Three

accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules, the budgetary comparison schedules, the schedules of projects constructed with special sales tax proceeds are fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 18, 2014, on our consideration of the City of Winder, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Winder, Georgia's internal control over financial reporting and compliance.

Chrise Heli Pelic

Macon, Georgia December 18, 2014

Management's Discussion and Analysis

This discussion and analysis presents the highlights of financial activities and financial position for the City of Winder (City). The analysis focuses on significant financial issues, major financial activities and resulting changes in financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the City. Management's Discussion and Analysis (MD&A) focuses on current year activities and resulting changes. Please read it in conjunction with the Transmittal Letter and the City's financial statements.

Financial Highlights

The assets of the City of Winder's governmental activities and business-type activities exceeded its liabilities at the close of the fiscal year by \$81.9 million. Of this amount, \$17 million (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.

The City's cash and cash equivalents at the end of FY 2014 was \$16.2 million, an increase of \$3.8 million from FY 2013.

The primary government's total net position increased by over \$3 million during FY 2014. Government-wide revenues increased by \$4.1 million and expenses increased by \$2.2 million from the prior year. Natural gas sales and expenses were up from FY 2013 due to a cooler, longer winter. Water Taps, and Business Licenses were the highest since FY 2008. Taxes (Sales and Property/Fire tax) increased by \$616,000, along with the City's Portion of SPLOST by \$106,000. The City's salaries and wages decreased by \$82,000, however, pension and health insurance increased by a combined amount of \$77,000, due to funding OPEB by \$123,600.

At of the close of the current fiscal year, the primary government's governmental funds reported combined ending fund balances of \$4.1 million an increase of \$860,000 from the prior year. This increase is, in part, attributable to additional tax and assessment revenue, SPLOST (Special Purpose Local Option Sales Tax) and LOST proceeds and intergovernmental revenues.

At the end of the current fiscal year, unassigned fund balance for the General Fund was \$369,000. The "non-spendable" fund balance consists of advances to the Environmental Protection Fund and the Buildings Fund. These amounts are anticipated to be paid back to the General Fund in the future.

Enterprise (business-type) fund unrestricted net position for the FY 2014 was \$15.2 million, or 22.5% of total enterprise fund expenses.

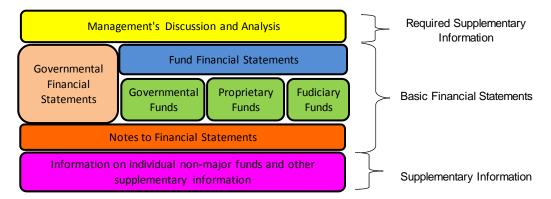

The City pays 80% of health insurance for the City of Winder's fulltime employees. In FY 2014, the health insurance premiums paid by the City were \$1.3 million which was approximately the same as FY 2013.

Purchase of Golf Course – In August 2013, the City Council agreed to purchase the Chimneys Golf Course for \$600,000. The purchase was made on September 16, 2013.

The Georgia Department of Transportation completed their portion of the City of Winder's Streetscape program which began in FY 2011 with the City relocating water, sewer, and gas lines. The City continues to build on this project with additional enhancements to the downtown area. During FY 2014, the City expended \$454,000 on streetscape projects.

Report Layout

The following illustration is provided as a guide for the financial statements:

The City's Comprehensive Annual Financial Report (CAFR) consists of several sections. Taken together they provide a comprehensive financial look at the City. The components of the report include the following:

- Independent Auditor's Report.
- Management's Discussion and Analysis. This section of the report provides financial highlights, overview and economic factors affecting the City.
- Basic Financial Statements. Includes a Statement of Net Position, a Statement of Activities, fund financial statements and the notes to the financial statements. Statements of Net Position and Activities focus on a government-wide presentation using the accrual basis of accounting. They are designed to be more corporate-like in that all activities are consolidated in total for the City.
 - The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of the assets the City owns, the liabilities it owes and the net difference. The net difference is further separated into amounts net investment in capital assets, restricted for specific purposes and unrestricted amounts.
 - The Statement of Activities focuses on gross and net costs of City programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
 - Fund Financial Statements focus separately on the major governmental fund and proprietary funds. Governmental fund statements follow the more traditional presentation of financial statements. The City's major governmental fund is presented in its own column and the seven remaining funds are combined into a column titled "Nonmajor Governmental Funds." Statements for the City's proprietary funds follow the governmental funds and include net position, revenues, expenses and changes in net position, and cash flows. There are two major enterprise funds (Water and Sewer Fund and Gas Fund) and five nonmajor enterprise funds which are combined into a column titled "Nonmajor Enterprise Funds".
 - The City had three internal service funds to account for the cost of administration of the solid waste, gas and water utility operations, fleet maintenance and City buildings. Fleet Maintenance was outsourced as of the end of FY 2013; therefore, the fund was dissolved in FY 2014. Costs of the internal service funds are charged to the applicable funds. The combined internal service funds' net position, revenues, expenses, and changes in net position are presented in the proprietary fund statements.

- Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.
- The *Notes to the Basic Financial Statements* provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the City's financial condition.
- Required Supplementary Information. Presents the General Fund's budget to actual comparison schedule and the notes to the required supplementary information. The General Fund is the City's only major governmental fund.
- Other Supplementary Information. Readers desiring additional information on nonmajor funds can find it in the Combining Statements of Nonmajor Funds and/or the Supplementary Information-Budgetary Comparison sections of this report. Components within this section include:
 - Nonmajor Governmental Funds Statements. Major funds are included within the Basic Financial Statements, whereas nonmajor funds are presented here. These statements include combining balance sheets and statements of revenues, expenditures and changes in fund balances.
 - Budgetary comparison information for nonmajor governmental funds, excluding the Capital Project Funds, and schedules of General Fund revenues and expenditures are presented here.
 - Agency Funds Changes in Assets and Liabilities represents the activities of the City of Winder's Municipal Court and Downtown Improvement Funds.
 - Nonmajor Proprietary Funds Statements. The City has eight nonmajor proprietary funds, five of which are enterprise funds and are presented in the combining statements of net position, revenues, expenses, and changes in net position, and cash flows.
 - Internal Service Funds Statements. The City has three internal service funds that are presented in the combining statements of net position, revenues, expenses, and changes in net position, and cash flows.
 - Special Purpose Local Option Sales Tax reports complete the Financial Section of this report.
- Statistical Section. Trend information and statistics.
- □ Report by Independent Certified Public Accountant. Supplemental communication on the City's compliance, internal controls, and other matters.

Government-Wide Financial Analysis

The government-wide statements report information about the City of Winder as a whole using accounting methods similar to those used by private sector companies. Net position may serve over time as a useful indicator of the City's financial position. In the case of the City of Winder, assets exceeded liabilities by \$81.9 million at the close of Fiscal Year 2014.

The component of net position, which may be used to meet the City's ongoing obligations to its citizens and creditors, is unrestricted in the amount of \$16.7 million or 20.5%. Another component of the City's net position is net investment in capital assets (e.g. land, buildings, infrastructure, machinery and equipment); less any related debt used to acquire those assets that is still outstanding, which comprises \$61.1 million or 74.6%. The City uses these capital assets to provide services to its citizens, and consequently these assets are not available for future spending. Although the City's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$4.1 million or 4.75% represents resources that are subject to external restrictions on how they may be used and debt service.

Statement of Net Position at June 30, 2014 and 2013

Net Position at Year-End

(in millions of dollars)

Governmental Activities

Governmental activities increased the City of Winder's net position by nearly \$800,000. The City's transfers into governmental funds from proprietary funds decreased by \$1.1 million from FY 2013 due to additional tax revenue. A comparison of the prior year income and expenses before transfers to the FY 2014 income and expenses before transfers reveals a slight decrease in the net loss. The City increased the Street Light assessment from \$15 per parcel to \$50 per parcel. This resulted in an additional \$212,000. The City's mileage for Fire Taxes stayed the same, however, the tax revenue from this source increased by \$262,000 from prior year due to collections. The City's fines and forfeitures increased by \$122,000 from FY 2013. SPLOST increased by \$106,000, LOST increased by \$82,000, and insurance premium taxes increased by \$24,000. The city recognized revenues of \$123,000 in LMIG grant and in turned paid out \$158,000 for street repairs associated with this grant. Overall expenses of the governmental funds increased by \$147,000. Professional fees increased by \$562,000 due to outsourcing the City's Public Works, Facility Maintenance, and Stormwater to ESG, Inc., in March 2014. The Purchased Property and Supplies category of expenses declined by \$227,000. Personnel expenses declined by \$188,000 due to the outsourcing of public works, however, this decline would have been more because the City funded its OPEB by \$123,600. The City is still behind pre-recession income in occupational tax revenues, building permit revenues, and interest revenues.

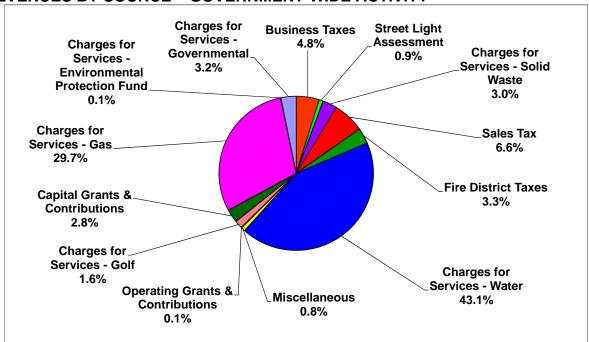

Business-type Activities

Business-type activities increased the City of Winder's net position by approximately \$2.5 million. The Water Fund revenues increased by \$1 million, which was due to a sewer rate increase in March 2014, additional gallons of water consumed by our citizens, and an increase in the number of water taps sold.

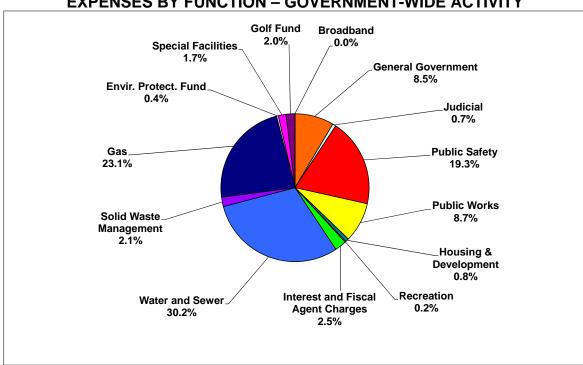

Financial Section

Water expenses had a slight increase due to transferring the meter readers and technicians from the Utility Service Fund (Internal Service) and additional costs for utility supplies associated with the City's ongoing Fixed Network project which replaces the City's current drive-by meter reading system with the Sensus Flex Net Automatic reading system. The Water Department installed approximately 2,500 water smartpoints in FY 2014. The Water Department decreased its water purchases for resale expenses by \$155,000 due to a change in the contract with Barrow County for the purchase of water. Gas revenues were up significantly, along with the expenses in the Gas Fund, because of a higher consumption demand. The result was a net income of \$450,000. The Gas Department installed an additional 960 gas smartpoints. The Environmental Protection Fund remained unfunded and produced a net loss of \$24,000. As stated before, the City purchased the Chimneys Golf Course in September 2013. Prior to transfers, the Golf Fund had a net loss of \$115,000 due to startup cost and purchasing the course after, its peak season for golf rounds. Solid Waste increased revenue by \$66,000 due to a rate increase of \$1 per month in September 2013. Transfers to the Governmental Funds decreased by \$1.1 million compared to FY 2013.

EXPENSES BY FUNCTION – GOVERNMENT-WIDE ACTIVITY

Note: Graph may not equal 100% due to rounding

Financial Analysis of the Government's Funds

As noted earlier, the City of Winder employs fund accounting to ensure and demonstrate compliance with finance-related legal requirements and financial reporting requirements.

The focus of the City of Winder's governmental funds is to provide information Governmental Funds on near-term inflows, outflows, and balances of spendable resources. Such information is useful in evaluating a government's near-term financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

As of the end of FY 2014, the City's governmental funds reported combined ending fund balances of \$4.1 million, an increase of \$860,000. The City reported \$386,000 in unassigned fund balance. The City reported \$2.1 million in nonspendable fund balance. This amount is mainly attributable to the General Fund loaning money, through an advance, to the Environmental Protection Fund and the Buildings Fund. The City believes that those funds will repay the General Fund within the next 10 to 20 years. The remainder of fund balance is restricted or committed to indicate that it is not available for new spending because it has already been obligated for other restricted purposes.

As in previous years, the City of Winder levied no property tax (except for fire services) to finance current operations. Therefore, the City's General Fund relied on transfers from the proprietary funds (or businesstype activities) to supplement the governmental activities of the City, such as public safety and public works. The transfers from the combined public utility enterprise funds were \$3.6 million.

REVENUES BY SOURCE-GOVERNMENTAL FUNDS

Note: Graph may not equal 100% due to rounding

Intergovernmental

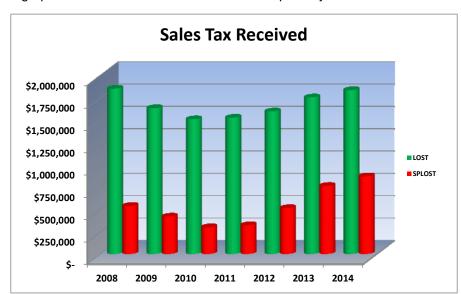

9.4%

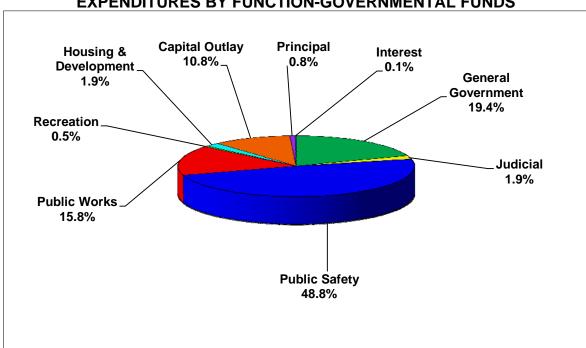

The City's governmental funds operating revenues (excluding indirect cost allocation) were up \$815,000 from the prior year which was primarily due to an increase in taxes received, fines and forfeitures, building permits, grants received (LMIG), and insurance premium taxes. The increase in Street light assessment from \$15 to \$50 per parcel and the additional collections of fire taxes resulted in an increase of \$474,000. Fines and forfeitures increased by 19%. Building permits nearly doubled in FY 2014 going from \$29,000 in 2013 to \$55,000 in FY 2014. The City's Local Option Sales Tax yielded \$82,000 more than in the prior year. The Capital Projects Fund accounts for the Special Purpose Local Option Sales Taxes received by the City which is authorized by voter referendum. The City received \$106,000 more in SPLOST proceeds than in FY 2013. Interest revenues and police SRO services revenues decreased from 2013.

License and Permits 1.7%

0.3%

Shown here is a graph of sales tax revenues received in the past 7 years:

EXPENDITURES BY FUNCTION-GOVERNMENTAL FUNDS

Note: Graph may not equal 100% due to rounding

Expenditures in the governmental funds were \$13.4 million, a slight decrease from the prior year. The City recognized \$1.4 million for capital outlay expenditures. Operating expenditures of the City governmental funds were \$11.9 million, approximately the same as prior year. As stated above, the City outsourced its public works and building maintenance departments in March 2014.

The City's proprietary funds provide the same type of information found in the **Proprietary Funds** government-wide financial statements, however in more detail. Overall revenues were up by \$3.5 million, of which included gas revenues that were up by \$1.8 million due to a slight increase in the cost of gas and an increase in consumption used by the customers. Gas, water and sewer taps increased by \$564,000. The all new revenues for the golf course were \$568,000. Total expenses of the proprietary funds remained approximately the same excluding the cost of natural gas for resale and personal services which increased due to operations of the golf course that the City purchased in FY 2014.

Budgetary Highlights

The City Council approves all budget amendments prior to finalizing the audit. Budget variances are reviewed with the Mayor and Council on a monthly basis. Below are the significant budget amendments in FY 2014:

- ☐ General Fund Purchased a fire truck with debt proceeds.
- Grant Fund Received a grant for police equipment. The Council increased the budget for Grant revenue and small equipment.
- □ Festival Fund Additional vendor revenue was received, which paid for additional festival expenditures. The City Council increased the budget for Vendor Revenue and Professional Expenditures.

General Fund expenditures were \$1.4 million less than budgeted. Personnel costs were under budget by \$906,000, professional and technical expenditures were over budget by \$200,000. Supplies expenditures were \$381,000 under budget. Purchased property expenditures were slightly over budget. Some capital outlay projects were put on hold because the funding sources were not available.

Financial Section

General Fund revenues were \$184,000 more than budgeted. Fines and forfeitures came in \$110,000 over budget. Combined taxes were \$351,000 over budget primarily due to collections. Indirect cost revenue was \$374,000 under budget. Investment earnings were under budget, however, contributions, license and permits, and charges for services were over budget by \$97,000.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2014, the City has invested \$83.8 million (net of depreciation) in capital assets reflected in the following table.

	Governmental					Busines	е						
		Activ	/ities			Activ	vities		Totals				
	2	2014	2013		2014		2013		2014			2013

	\$	11.8	\$	11.7	\$	72.0	\$	74.1	\$	83.8	\$	85.8	

The following table reconciles the change in capital assets.

Change In Capital Assets

(in millions of dollars)

	Governmental Activities		7	iness- ype tivities	Totals		
Beginning Balance	\$	11.7	\$	74.1	\$	85.8	
Additions		1.4		1.2		2.6	
Reductions		-		-		-	
Depreciation		(1.3)		(3.3)		(4.6)	
Ending Balance	\$	11.8	\$	72.0	\$	83.8	

Capital asset additions to governmental activities amounted to over \$1.4 million, which included seven new vehicles for the Police Department along with a license plate scanner, a fire truck, a brush truck, and tractor for the Public Works Department. The City also installed a reader board to provide information to our citizens and improved the look and quality of the downtown area with our streetscape program. Depreciation decreased total capital assets by \$1.3 million.

Business-type additions to capital assets amounted to \$1.2 million. The Water Fund purchased a new truck, a trailer, and completed water and sewer line improvements. The Gas Fund purchased a new truck. The Environmental Protection Fund continued work on storm water projects. The Special Facilities Fund purchased video equipment for the theater and had land improvements in one of its parks. The City purchased the operations of the golf course for \$600,000 which included two buildings and land improvements. The Golf Fund also purchased equipment to maintain the golf course.

Depreciation decreased business-type capital assets by \$3.3 million.

Note 6 to the financial statements include more detailed information on capital asset activities.

Debt Outstanding

As of year-end, the City had \$23.1 million in debt outstanding compared to \$24.3 million last year. This included \$2.1 million due within one year. The following table presents a comparison of debts outstanding:

Debt Outstanding At Year End

(in millions of dollars)

	Totals						
	2	2014	2	013			
Governmental:							
Capital Leases	\$	0.7	\$	0.3			
Compensated Absences		0.1		0.1			
Sub-total		0.8		0.4			
Business-type:							
Notes	\$	1.6	\$	1.4			
Water and Sew er Bonds		20.7		22.5			
Sub-total		22.3		23.9			
Total	\$	23.1	\$	24.3			

In FY 2014, the City's General Fund entered into a ten year lease at 2.53% for a fire truck. The fire truck initially cost \$472,627. The City's Water Fund entered into an agreement with GEFA to finance the City's fixed network for a \$3,000,000 loan. The City received \$446,441 in draws. The project is not complete so an amortization schedule has not been created.

As stated above, the City purchased the Chimneys Golf Course and assumed two leases: one for an airifier and the other for a mower. These are capital leases with \$1 bargain purchase option at the end of the leases.

The City's payments throughout the year decreased existing debt.

Note 8 to the financial statements includes more detailed information on long-term debt activities.

Economic Factors

Funding for the operations of the City comes primarily from: sales taxes, fines and forfeitures, licensing and permitting activities, and utility profits. As the general economy is fluctuating, the City remains focused on reducing operational costs through increasing the effectiveness and efficiency of the City's operations and administration. The City remains quality driven, committed to providing excellent service in a cost-effective and efficient manner guided by and aligned with our core values.

The 2015 budget was developed and adopted to reflect conservative revenue figures, and the following indicators were taken into account:

- The City's FY 2014-2015 operating budget increased by \$3.6 million, or 12.2%, over the FY 2013-2014 operating budget; and increased by \$4.8 million, or 16.6%, over the FY 2012-2013 operating budget.
- During FY 2014, the City purchased the Chimneys Golf Course which added approximately \$1 million to the City's overall budget.
- The Gas Fund has the largest increase in budgeted expenses due to the increase in the forecasted cost of natural gas based on past trends. The expected increase is approximately 27.5% over the FY 2014 budget. The cost of natural gas for FY 2014 cost the City \$1.3 million more than budgeted.
- The City's total cost of personal services is approximately 31% of the total operating budget. The FY 2015 budget reflects a 5% increase in insurance costs and 3% possible merit raise for the employees.

Financial Section

- The City will fund the Winder Library with \$130,000, which is an additional \$30,000 over the original budget for FY 2014. On October 8, 2013, the Winder City Council voted to amend the FY 2014 budget by increasing the funding to the Library by the additional \$30,000. This was a 30% increase over the previous 5 years.
- The Winder Downtown Development Authority will receive \$50,000 in funding from the City of Winder. This is a decrease of \$22,000 from the FY 2014 budget.
- The City of Winder assumes that all capital purchases will be acquired with proceeds from debt or revenues that exceed expenditures.
- Upon approval of the FY 2014-2015 Budget, the City of Winder will increase its capital threshold for infrastructure to \$25,000 from \$5,000.
- The City continues to reorganize to enable the most services for the money. In the FY 2014-2015 budget the overall number of Full Time Equivalents (FTE's) decreased by 5.12

The goal of the City is to maintain and improve the City's quality of services while preserving the City's financial position without putting unjust financial burdens on our citizens.

Financial Contact

The City's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the City's finances and to demonstrate the City's accountability. City of Winder, Georgia Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2014

Net Change In Fund Balance - Total Governmental Funds		\$ 860,323
Amounts reported for governmental activities on the Statement of Activities are different from the amounts reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized outlays exceeded depreciation in the current period.		
Expenditures for Capital Assets Less Current Year Depreciation	1,444,273 (1,254,367)	189,906
The net effect of sale/scrapping/transferring capital assets Capital Assets Sold/Scrapped/Transferred Accumulated Depreciation	(192,023) 124,398	(67,625)
Transfer of capital assets from (to) the business-type activities increases(decreases) net assets in the statement of activities, but do not appear in the governmental funds activities, because they are not financial resources.		
Assets Transferred from Fleet Maintenance Less Accumulated Depreciation	28,495 (28,495)	-
The issuance of long-term debt (e.g. notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. This amount is the net effect of these differences.		
Issuance of Long-term Debt Payment of Long-term Debt	(489,000) 102,352	(386,648)
The net OPEB liability does not require the use of current financial resources and is not reported as expenditures in the governmental funds.		107,286
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		
Fire District Taxes		5,224
Expenditures in the Statement of Activities that do not require current financial resources and not reported in the funds.		
Compensated Absences		31,794
Internal Service Fund - Building is used by management to charge cost of City Buildings to individual funds. The income and expenses of the Internal Service Fund- Buildings is included in governmental activities in the Statement of Activities.		53,000
	•	
Change in Net Position of Governmental Activities		\$ 793,260

Notes to the Basic Financial Statements

1-Summary of Significant Accounting Policies

This summary of the City of Winder's more significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. These policies are an integral part of the accompanying financial statements.

The City of Winder, incorporated in 1894, operates under a Mayor-Council form of government. The City provides a full range of services. These services include police and fire protection; natural gas; water; sanitary sewer; solid waste disposal; cultural and recreational activities; planning and zoning; economic development; the construction and maintenance of highways, streets, sidewalks, and stormwater infrastructure.

The accompanying financial statements report on the financial activity for the City of Winder, Georgia for the fiscal year ended June 30, 2014. The statements include all the funds controlled by the Mayor and Council of the City of Winder, Georgia. The financial statements have been prepared in conformance with generally accepted accounting principles (GAAP) as applied to governmental units. The more significant accounting policies established in GAAP, and used by the City, are discussed below.

Reporting Entity

The City presents in the accompanying financial statements those entities that comprise the primary government along with its component unit, an entity for which the City is considered to be financially accountable. At June 30, 2014, the City's reporting entity consists of the City of Winder, Georgia and the Downtown Development Authority, Winder, Georgia (a component unit). The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

Downtown Development Authority

The Downtown Development Authority ("Authority") is a nonmajor component unit of the City of Winder. The Authority solely serves the City and is controlled and managed by a board of seven members appointed by the Mayor and Council of the City. The purpose of the Authority is to foster the revitalization and redevelopment of Winder's Central Business District by facilitating projects that will promote trade, commerce, industry, and employment opportunities. Upon dissolution, the assets of the Authority would revert to the City.

Complete financial statements for the Downtown Development Authority may be obtained at the administrative offices.

City Hall 25 East Midland Avenue Winder, Georgia 30680

Basic Financial Statements

The financial transactions of the City are presented in the basic financial statements that consist of the government-wide financial statements and the fund level financial statements. The government-wide financial statements categorize primary activities as either governmental or business-type. Governmental activities, which are generally financed by taxes, intergovernmental revenues, and other non-exchange revenues, are reported separately from business-type activities, which are financed for the most part by fees and charges for goods and services.

Government-wide financial statements provide financial information about the City as a whole. They focus on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. These aggregated statements consist of the Statement of Net Position and the Statement of Activities. The primary government and the component unit are presented separately within these financial statements with the focus on the primary government. The fiduciary funds are not presented in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Where internal activity is representative of an interfund service provided and used, no elimination has been made. Internal activities have not been eliminated from the fund financial statements. Exceptions to this general rule include charges between the City's business-type activities/proprietary funds, as well as some special revenue funds, and the General Fund. The City allocates charges as reimbursement for services provided by the General Fund in support of those functions based on levels of service provided. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. These allocated amounts charged through the City's indirect cost allocation plan are reported in a separate column on the Statement of Activities.

The Statement of Net Position presents the financial position of the governmental and business-type activities of the City and its discretely presented component unit at year end, June 30, 2014.

The *Statement of Activities* matches the direct expenses of a given function or segment with the related program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Fund financial statements present information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified and summarized as governmental, proprietary, or fiduciary. Major individual governmental funds and major individual proprietary funds are reported in separate columns in the fund financial statements. Nonmajor funds are consolidated into a single column within each fund type in the financial section of the basic financial statements and are detailed in the supplemental information.

Basis of Presentation

The financial transactions of the City are recorded in individual funds. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

GAAP sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and proprietary combined) for the determination of major funds. Nonmajor funds are combined in a column in the fund financial statements and detailed in the combining section.

Governmental Funds

The City reports only the General Fund as a major governmental fund. All other funds are considered non-major funds.

General Fund

The General Fund is the principal fund of City and is used to account for and report all financial resources not accounted for and reported in another fund. The General Fund accounts for the normal recurring activities of the City (i.e., police, fire, public works, general government, etc.).

The City reports the following non-major funds within the governmental fund type:

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted legally to expenditures for specified purposes. The City utilizes five funds of this type, which are the Hotel/Motel Tax Fund, Community TV Station Fund, City Festivals Fund, Police Escrow Fund, and Grant Fund.

Capital Project Funds

The Capital Project Funds account for financial resources to be used for the acquisition or construction of major capital projects. The Capital Project Funds maintained by the City are as follows:

The Capital Projects Funds (SPLOST 2005 & SPLOST 2012) account for the receipt and use of Special Purpose Local Option Sales Tax (SPLOST) proceeds for road and sidewalk improvement projects, recreation facilities, downtown redevelopment projects, streetscape, and sewer facilities.

GDOT-LMIG Fund to account for the cost of DOT (Department of Transportation) paving projects

Fiduciary Funds

Agency Fund - Municipal Court

The Municipal Court Fund is used to account for the monies received from fines collected that are due to other entities.

Agency Fund – Downtown Improvement

The Downtown Improvement Fund is used to account for the monies received and restricted for improvements to Downtown Winder.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations

Proprietary Funds

Proprietary funds are often called "income determination", "non-expendable," or "commercial-type" funds and are used to account for the ongoing activities of the City that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the City's business and quasi-business activities are accounted for through proprietary funds. The measurement focus is upon flow of economic resources. The City reports two of its proprietary funds as major funds. Below are the City's proprietary funds:

Enterprise Funds:

Water and Sewer Fund

The Water and Sewer Fund is the largest of the ten proprietary funds operated by the City. The Water and Sewer Fund accounts for the operations of the water and sewer systems of the City. The system supplies water and sewer service to area residents and to industrial and commercial users in the City and County.

Gas Fund

The Gas Fund is the second largest of the ten proprietary funds and accounts for the distribution and sale of natural gas in the City of Winder and the counties of Barrow, Walton, and Oconee.

Non- Major Enterprise Funds:

Solid Waste Management Fund

The Solid Waste Management Fund accounts for the contract costs of solid waste collection, disposal, and recycling. During FY 2012, the City entered into a contract with Waste Management to collect and dispose of the business and residence solid waste.

Special Facilities Fund

The Special Facilities Fund is used to account for the rents and other income and the related costs (including depreciation) of operating the City's Community Center, Adult Education Center, Historic Train Station, the Cultural Arts Center, and other City-owned income producing buildings.

Environmental Protection Services Fund

The Environmental Protection Services Fund (EPS) records revenues and expenses associated with the operation and maintenance of the City's stormwater systems and the management of the FOG program and Watershed Protection Plan.

Chimneys Golf Course Fund

The Chimneys Golf Course Fund is the newest of the proprietary funds and accounts for the operations and maintenance associated with managing the Chimneys Golf Course which is located at 338 Monroe Highway, Winder, Georgia.

Broadband Fund

The Broadband Fund is used to account for the fiber infrastructure installed that the City has available to lease to businesses in the City's downtown area.

Internal Service Funds:

Internal Service Funds account for goods and services provided by one department to other departments or funds on a cost-reimbursement basis. The City has the following Internal Service Funds:

Utility Service Fund

The City accounts for its utility billing, meter reading, and Customer Service in the Utility Service Fund.

Fleet Maintenance Fund

The Fleet Maintenance Fund was used to account for the vehicle maintenance of the City's fleet; however, at the end of FY 2013, Fleet Maintenance was outsourced and is accounted for within each department. Therefore, FY 2014 will be the final year to report activity in the Fleet Maintenance Fund.

Buildings Fund

The City accounts for the purchase and capital costs of its General Governmental Buildings in the Buildings Fund. The Building Fund then receives rental income from the departments that use these buildings.

Basis of Accounting and Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its basis of accounting and measurement focus. Basis of accounting refers to when transactions are recorded while measurement focus describes which transactions are recorded.

The Government-wide Financial Statements, the Proprietary Funds Financial Statements, and Fiduciary Fund Statements are presented on an *accrual* basis of accounting with an *economic resource* measurement focus. Agency funds have no measurement focus. An economic resource focus concentrates on an entity or fund's net position. All transactions and events that affect the total economic resources (net position) during the period are reported. An economic resources measurement focus is inextricably connected with accrual accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash inflows and outflows.

All Governmental Fund types use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the transaction can be identified, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable. Principal and interest on general long-term debt is recorded as fund expenditures when due.

All Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Revenues that are susceptible to accrual include certain intergovernmental revenues, sales taxes, interest on investments and charges for services.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is necessary to explain the adjustments needed to transform the fund based financial statements into the governmental column of the government-wide presentation. This reconciliation is part of the basic financial statements.

The Proprietary Fund types are accounted for on the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when incurred.

All proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and liabilities associated with the operation of these funds are included on the balance sheet using this measurement focus. Fund equity (i.e., net position) is segregated into Net Investment in Capital Assets,

Restricted and Unrestricted. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net position.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues for the proprietary funds are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses, and include interest revenue and interest expense.

Assets, Liabilities and Equity

Cash and Investments

The City considers currency on hand; demand deposits with banks, amounts included in pooled cash and investment accounts to be cash and cash equivalents. Cash equivalents that mature in three months or less are readily convertible to known amounts of cash.

Statutes authorize the City to invest in obligations of the United States and of its agencies and instrumentalities, bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions, certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations, and Georgia Fund 1, the Local Government Investment Pool. Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Office of State Treasurer. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines a participant's shares sold and redeemed based on \$1.00 per share.

The City's investments are stated at fair value, which is determined using selected basis. Short-term investments are reported at cost, which approximates fair value. Investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amount, which is fair value.

Receivables and Payables

Residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "Internal Balances".

Receivables of the proprietary funds are recognized as revenue when earned, including services provided but not billed. Receivables in governmental and proprietary funds are stated net of an allowance for collectibles.

Inventories

Inventories of materials and supplies in the proprietary funds are stated at cost on a first-in, first-out basis and charged to expense as used.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond the balance sheet date are recorded as prepaid assets. The cost of the related payment is recorded as an expenditure over the time the related services are provided (consumption method).

Deferred Outflows/Inflows of Resources

The City implemented GASB Statements No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and No. 65, Items Previously Reported as Assets and Liabilities, as of July 1, 2012. These new standards establish accounting and financial reporting for deferred outflows / inflows of resources and the concept of net position as the residual of all other elements presented in a statement of net position.

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item that qualifies for reporting in this category – the deferred charge on refunding reported in the enterprise funds and government wide statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is no longer reported net of debt and is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has unavailable revenue, which arises only under the modified accrual basis of accounting that qualifies for reporting in this category on the governmental funds balance sheet. The following amounts are deferred and recognized as an inflow of resources in the period that the amounts become available:

General Fund

Fire Taxes

\$ 55,854

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

Bond Insurance

In Water and Sewer Fund, bond insurance are deferred and amortized, using the bonds outstanding method, over the lives of the related issues. The original amount of the bond insurance costs on the 2012 series bonds were \$100,322. As of June 30, 2014 accumulated amortization was \$8,167, for a balance of \$92.155.

Restricted Assets

Certain proceeds of proprietary fund revenue bonds are classified as restricted assets on the Statement of net position because their use is limited by applicable bond covenants. The Water and Sewer Fund sinking fund accounts are used to segregate resources accumulated for debt service payments. Other assets earmarked for restricted use in accordance with legal provisions or external requirements are indicated on the balance sheets. When an expense is incurred for which both restricted and unrestricted net position are available, the City's policy is to apply the restricted net position first.

Capital Assets

Property, plant, and equipment have been recorded at cost, if purchased, and if donated, at fair market value on the date of donation. The City maintains a capital threshold of \$5,000 for vehicles, equipment, buildings and land, and \$25,000 for infrastructure. Interest expense of the proprietary funds is capitalized during construction when assets are constructed with borrowed monies. Capital assets are reported in

both the applicable governmental or business-type activities columns in the government-wide statements. Capital assets are charged to expenditures when purchased in the governmental fund statements, and capitalized in the proprietary fund statements.

Depreciation is calculated on the straight-line basis. Depreciation is based on the following estimated useful lives:

Depreciation Schedules

		Infrastructure	Vehicles and
	Buildings	Plant/System	Equipment
Governmental Funds	10-40	30-60	1-20
Water and Sewer	10-40	10-50	3-10
Gas	10-40	5-50	3-10
Special Facilities	10-40	NA	3-10
Golf Fund	10-40	5-50	3-10
Broadband	NA	5-40	NA
Internal Service Funds	10-40	NA	3-10
Component Unit - DDA	NA	30	NA

Infrastructure is depreciated over 60 years straight-line. Beginning with Fiscal Year 2006, the City has reported all infrastructure assets in accordance with GASB Statement #34.

Gains or losses from sale or retirement of assets are included in current operations in the government-wide statements and individual proprietary fund financials.

Major improvements that extend the life of an asset are capitalized. Normal maintenance and repairs are charged to expense as incurred.

Compensated Absences

Vacation pay is accrued when earned. Vacation leave must be used within a year of earning. Sick leave benefits are not accrued because the payment of the benefits is contingent upon the future illness of an employee. Sick leave is generally earned and accumulated at the rate of 6 hours per month. Employees in the Defined Benefit Plan may elect to apply accumulated sick leave to time of service at their retirement. Upon termination of employment, individuals are not paid for unused sick leave.

Long-term Obligations

In the government-wide financial statements, long-term debt and other liabilities are reported as liabilities of governmental activities or business-type activities. They are also reported as liabilities in the proprietary fund financial statements. Bond insurance costs are accounted for as prepayments and are amortized over the life of the bonds. Bond premiums and discount are reported in the net carrying value of the debt and are amortized over the life of the bonds using the straight-line method. Loss on refunding of debt is reported as a deferred outflow of resources and is amortized over the life of the refunding debt using the straight-line method.

In the governmental fund financial statements, long-term debt is not reported as a liability. Instead, the face amount of debt issued is reported as other financing sources, and payment of principal and interest are reported as expenditures. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

Capital Contributions

Federal, state and local government assistance in the form of grants that are permanent in nature and restricted for the construction or acquisition of specific property and equipment is recorded as an asset and as non-operating revenue. Any other assets donated to the City are recorded in the same manner.

Classifications of Fund Balance

The GASB issued Statement No. 54. Fund Balance Reporting and Governmental Fund Type Definitions, to address issues related to how fund balance was being reported. Fund Balance will be displayed as nonspendable, restricted, committed, assigned, and unassigned depicting the relative strength of the spending constraints placed on the purposes for which resources can be used.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the City to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds (business-type activities). For the City of Winder, these revenues are charges for services for water, sewer, natural gas, solid waste, golf, and building rentals. Operating expenses are necessary costs incurred to provide goods or services that are the primary activity of each fund.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and in the non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported after general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are also eliminated.

Comparative Data

Comparative data for the prior year has been presented in some of the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative data (presentation of prior year totals by fund type) has not been presented in each fund since its inclusion would make the statements unduly complex and difficult to read. Also, certain prior year amounts have been reclassified to conform to the current year presentation.

2-Budgetary Information

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. During May, the Mayor submits to the City Council a proposed operating budget, in a separate budget document, for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means to finance them.

- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to July 1, the final budget is presented to the City Council by the Mayor and is legally enacted through passage of a budget resolution.
- 4. Budgetary control is maintained at the department level.
- 5. Formal budgetary integration is employed as a management control device during the year for all funds except the Agency Funds.
- 6. The annual budgetary data reported for the General Fund and the annually-budgeted Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles and represent the original appropriation ordinance and other budget amendments as adopted by the City Council. Appropriations lapse at the end of each fiscal year for these funds.

The Budget Officer is permitted to transfer appropriations within a department. City Council must approve transfers between functions and subsequent budgetary amendments. Expenditures may not legally exceed budgeted appropriations at the department level within the fund.

Significant departures must be in excess of \$75,000 and more than 4.0% of the budgeted amount, within each department. There were no significant departures from the total budgeted amounts in the General Fund.

3-Deposits and Investments

Total deposits and cash investments as of June 30, 2014, are summarized as follows:

Balances per statement of net position:		
Cash-Primary Government	\$	13,011,042
Cash-CU-Downtown Development Authority		27,412
Restricted assets:		
Bond Sinking Accounts		2,612,782
Cash for Health Reimbursement Accounts		127,242
Cash for Customer Deposits		463,910
Balances per statement of fiduciary net position:		
Cash-Agency Funds		79,912
Total	\$	16,322,300
Cash deposited with financial institutions	\$	11,676,849
Cash deposited with Mancial Institutions Cash deposited with Georgia Fund 1	Ψ	1,997,829
Verity Bank - Bond Sinking Fund		2,612,782
Petty Cash		34,840
Total	\$	16,322,300

Credit risk

The City's investment policies authorize investment in the following securities approved by the State of Georgia for local governments. Authorized Investments include obligations of the State of Georgia or other states; obligations issued by the United States government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker's acceptances; the local investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. The City's policies do not establish a minimum credit rating for investments. Investments are reported at fair value.

As of June 30, 2014, the investments in the Georgia Fund 1 was rated AAAf by Standard & Poor's.

At June 30, 2014, the City had the following investments reported as cash:

Investments	Maturities	Rating	Value
Investment Reported in Cash:			
Georgia Fund 1	62 day weighted average	AAAf	\$ 1,997,829

Interest rate risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk - deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) that are not covered by FDIC insurance must be collateralized by 110% the value of the deposits by obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. At June 30, 2014, all deposits of the City were adequately insured or collateralized.

4-Accounts and Intergovernmental Receivables

Receivables as of year-end for the City's individual, major, and non-major governmental funds in the aggregate are as follows:

	Major	Nonmajor		
		Special	Capital	Total
	General	Revenue	Projects	
Receivables:	_			
Intergovernmental				
State of Georgia Sales Tax	\$190,569	\$ -	\$ -	\$ 190,569
State of Georgia Payroll Tax	17	-	-	17
Barrow County Board of Commissioners	-	3,000	79,252	82,252
Total Intergovernmental	190,586	3,000	79,252	272,838
Taxes				
Barrow County Tax Commissioner-Net	83,446	-	-	83,446
Hotel/Motel Taxes	-	10,396	-	10,396
Accounts	224,457			224,457
Total Receivables	\$498,489	\$13,396	\$ 79,252	\$ 591,137

The City does not maintain an allowance for bad debts on accounts. Annually, accounts that are determined to be uncollectible are written off.

5-Restricted Assets

The City's restricted assets include the following:

Governmental Activities	
Cash for Employee HRA/FSA Accounts	\$ 61,883
Cash for Health Insurance Premiums	65,359
Total Restricted	\$ 127,242
Business-type Activities	
Cash for Customer Deposits	\$ 463,910
Bond Sinking Accounts Cash	2,612,782
Total Business-Type Restricted Assets	\$ 3,076,692

6-Capital Assets

Capital asset activity for governmental activities for the fiscal year ended June 30, 2014 was as follows:

7-Risk Management

General Insurance

The City is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has contracted with a private insurance carrier, and is subject to various deductibles that are paid from City funds.

The City allows the insurance carrier's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the contract.

The insurer is to defend and protect the City against liability or loss as prescribed in the contract and in accordance with the laws of Georgia. The Insurer is to pay all cost taxed against the City in any legal proceeding being defended, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Health Insurance

The City provides health care benefits to its active and retired employees and their dependents. The City contracted with Cigna Insurance Company for health care coverage. The contract is a minimum premium plan, which is a fully insured plan with self-insured characteristics. Under this arrangement, the City is responsible for paying all claims up to an agreed-upon aggregate level, with the insurer responsible for the excess. The insurer is also responsible for processing claims and administrative services.

Workers Compensation

The City has obtained workers' compensation insurance from a Georgia Municipal Association Group Self Insurance Workers Compensation Fund. The limits of the coverage are \$1,000,000 for each employee claim with a \$10,000 deductible.

Settled claims in the past three years have not exceeded the coverage.

8-Long-Term Debt

Long-term debt information is presented separately for governmental and business-type activities. The table below presents current year changes in long-term debt and the current portions due for each issue.

,	Balance 06/30/2013		lı	Increase I		Decrease		Balance 06/30/2014		Due In FY 2015

Compensated Absences Payable		28,343		55,119		(54,379)		29,083		29,083
Total Business-Type Activities	\$	23,836,825	\$	532,679	\$	(2,056,321)	\$	22,313,183	\$	2,052,613

^{*}Compensated absences do not carry over from year to year; therefore they are all current obligations.

Governmental Activities

The City has financed the acquisition of a vehicle (fire truck) by means of a 10-year lease at 4.18% interest. The lease qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of their future minimum lease payments as of the inception date. The fire truck initially cost \$284,970, accumulated depreciation as of June 30, 2014, is \$256,473, for a net book value of \$28,497. Current year amortization for the asset totaled \$28,497 and is included as a component of depreciation expense.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014 were as follows:

Voor Ending June 20		ernmental ctivities
Year Ending June 30, 2015	- \$	34,997
Total Minimum Lease Payments Less Amount Representing Interest		34,997 (761)
Present Value of Minimum Lease Payments	\$	34,236

In FY 2009 the City entered into a ten year lease at 3.76% for a ladder fire truck. The fire truck, initially costing \$519,387, accumulated depreciation as of June 30, 2014, is \$294,319, for a net book value of \$225,068. Current year amortization for the asset totaled \$51,939 and is included as a component of depreciation expense.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014 were as follows:

	Go۱	Governmental			
Year Ending June 30,	Α	ctivities			
2015	\$	61,480			
2016		61,480			
2017		61,480			
2018		61,480			
2019		10,247			
Total Minimum Lease Payments		256,167			
Less Amount Representing Interest		(19,402)			
Present Value of Minimum Lease Payments	\$	236,765			

In FY 2014 the City entered into a ten year lease at 2.53% for a fire truck. The fire truck, initially costing \$472,627, accumulated depreciation as of June 30, 2014, is \$1,969, for a net book value of \$470,658. Current year amortization for the asset totaled \$57,542 and is included as a component of depreciation expense.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014 were as follows:

	Governmental		
Year Ending June 30,	Α	ctivities	
2015	\$	55,398	
2016		55,398	
2017		55,398	
2018		55,398	
2019		55,398	
2020-2024		253,907	
Total Minimum Lease Payments		530,897	
Less Amount Representing Interest		(59,900)	
Present Value of Minimum Lease Payments	\$	470,997	

The City's obligation to pay such lease payments is conditional on the annual appropriation of funds by the City Council.

In the Governmental Activities, compensated absences will be liquidated by the General Fund.

Business-type Activities

Water and Sewer Revenue Bonds

The Water and Sewer Fund has issued Water and Sewer Revenue Bonds (Series 2005, and Series 2009) and Winder-Barrow Industrial Building Authority Revenue Refunding Bonds, Series 2012. These revenue bonds constitute special obligations of the City solely secured by a lien on and pledge of the net revenues of the water and sewer system.

On February 1, 2005, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2005, with an interest rate of 3.71% and payments due on June 1 and December 1, ending December 1, 2016. Water and Sewerage Revenue bonds of 1993 and 1996 were defeased amounting to \$290,000 and \$5,045,000 respectively.

The annual requirement to amortize outstanding debt of the 2005 Water and Sewerage Revenue Bonds is as follows:

Fiscal Year			Total
Ending June 30	Principal	Interest	Debt Service
2015	\$ 897,000	\$ 86,907	\$ 983,907
2016	929,000	53,034	982,034
2017	965,000	17,901	982,901
Totals	\$ 2,791,000	\$ 157,842	\$ 2,948,842

On February 10, 2009 the City issued Water and Sewerage Revenue Refunding Bonds, series 2009 due at various dates ending December 1, 2018 with a yield of 3.295%. A portion of the Water and Sewerage Revenue bonds of 1998 were defeased amounting to \$4,325,000.

The annual requirements to amortize outstanding debt of the 2009 Water and Sewerage Revenue Bonds are as follows:

Fiscal Year			Total
Ending June 30	Principal	Interest	Debt Service
2015	\$ 210,000	\$ 100,542	\$ 310,542
2016	219,000	93,485	312,485
2017	227,000	86,149	313,149
2018	1,230,000	62,181	1,292,181
2019	1,275,000	20,974	1,295,974
Totals	\$ 3,161,000	\$ 363,331	\$ 3,524,331

On February 21, 2012, the City issued Winder-Barrow Industrial Building Authority Revenue Refunding Bonds, Series 2012 due at various dates ending December 1, 2029 and with various yields ranging from 2% to 5%. The proceeds from this refunding were to pay off a GEFA note in the amount of \$15,711,640. The annual requirements to amortize outstanding debt of the 2012 Winder-Barrow Industrial Building Authority Revenue Refunding Bonds are as follows:

Fiscal Year			Total
Ending June 30	Principal	Interest	Debt Service
2015	\$ 670,000	\$ 508,050	\$ 1,178,050
2016	685,000	494,500	1,179,500
2017	700,000	477,150	1,177,150
2018	715,000	455,925	1,170,925
2019	740,000	434,100	1,174,100
2020-2024	4,080,000	1,763,600	5,843,600
2025-2029	5,020,000	799,750	5,819,750
2030	930,000	23,250	953,250
Totals	\$ 13,540,000	\$ 4,956,325	\$ 18,496,325

The City is in compliance with all significant provisions of the bond indentures, series 2005, 2009 and 2012.

Notes Payable

The City's Water and Sewer Fund has entered into loan agreements in the original amount of \$4,393,775 with the Georgia Environmental Facilities Authority (GEFA), a State agency. The GEFA makes low interest long-term loans to fund improvements to publicly owned water and sewer systems. Once the loan commitment has been made, loan proceeds are drawn down as costs are incurred. Payback of the loan principal does not begin until after the funded project has been completed. Interest is paid on all outstanding amounts. The City's current GEFA loans outstanding have interest rates ranging from 2.00% to 2.4%.

The following tables show the details of all GEFA Loans through June 30, 2014, and the annual requirements to amortize the debt outstanding:

Fiscal Year						Total
Ending June 30	F	Principal	ı	Interest		ebt Service
2015	\$	111,472	\$	25,665	\$	137,137

Totals	\$	1,103,547	\$	127,720	\$	1,231,267

The 2012 GEFA-Fixed Network loan is a \$3,000,000 loan. The City received \$446,441 in draws. The project is not complete so an amortization schedule has not been created.

The City entered into a contract with HSF Engineering, Inc., in November 2004, to design and oversee the construction of the Cedar Creek Wastewater Reclamation Facility. The total cost was \$570,000, and the City paid, and continues to pay, \$4,750 monthly at 0% interest for 120 months. At May 2010, the facility was fully constructed, and at June 30, 2014, the remaining balance is \$23,750 as shown below:

Fiscal Year						Total
Ending June 30	Р	rincipal	Inter	est	Deb	ot Service
2015	\$	23,750	\$	-	\$	23,750

On April 2, 2013, the City entered into a note payable with David Jackson to purchase a parcel of vacant land on Athens Street. The lot will be used for carnivals, festivals and other events for the City of Winder. The total cost was \$75,000. The terms of the note are \$25,000 down and 0% interest on the remaining \$50,000. \$25,000 is to be paid annually on April 1 as follows:

Fiscal Year						Total	
Ending June 30	P	rincipal	lr	nterest	Debt Service		
2015	\$	25,000	\$	-	\$	25,000	

Capital Leases

The City assumed two capital leases during the purchase of the golf course in FY 2014. The first lease was for an airifier. The airifier cost \$18,275, accumulated depreciation as of June 30, 2014, is \$3,046 for a net book value of \$15,229. Current year amortization for the asset totaled \$3,046 and is included as a component of depreciation expense. The lease is for 41 months with \$1 buyout at the end of the lease.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014 were as follows:

Fiscal Year					Total		
Ending June 30	Ρ	rincipal	Inte	erest	Debt Service		
2015	\$	5,221	\$	-	\$	5,221	
2016		5,221		-		5,221	
2017		3,482		-		3,482	
Totals	\$	13,924	\$		\$	13,924	

The second lease is for a Greens Mower at a cost of \$12,844, accumulated depreciation as of June 30, 2014, is \$2,141 for a net book value of \$10,703. Current year amortization for the asset totaled \$2,141 and is included as a component of depreciation expense. This lease is for 27 months with \$1 buyout at the end of the lease.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014 were as follows:

Fiscal Year						Total	
Ending June 30	Р	rincipal	Int	erest	Debt Service		
2015	\$	5,138	\$	-	\$	5,138	
2016		3,425		-		3,425	
Totals	\$	8,563	\$		\$	8,563	

In the business-type activities, compensated absences will be liquidated by the applicable fund.

9-Advance Bond Refunding

In Fiscal Year 2006, the 1993 Water and Sewerage Revenue Bonds and a portion of the 1996 Water and Sewerage Revenue Bonds were defeased into the Series 2005 Water and Sewerage Revenue Bonds. In connection with this defeasement, the City recognized a book loss in the amount of \$605,674. This loss is being amortized over a 7 year 10 month period (the life of the defeased Series 1993 Bonds) using the straight-line method. As of June 30, 2014, accumulated amortization was \$605,674 with a net book value of \$0.

There were also bond issue costs incurred with the Series 2005 Bonds in the amount of \$114,750 with a net book value at June 30, 2013 of \$77,123. In accordance with GASB Statement 65 these issued cost were reclassified as an expense (FY 2013 prior period adjustment). At June 30, 2014, the outstanding balances on the defeased bonds from the 2005 refunding are as follows:

In FY 2009, a portion of the 1998 Water and Sewerage Revenue Bonds were defeased into the Series 2009 Water and Sewerage Revenue Bonds. In connection with this defeasement, the City recognized a book loss in the amount of \$525,461. This loss is being amortized over a 9 year 10 month period (the life of the defeased Series 1998 Bonds) using the straight line method. As of June 30, 2014, accumulated amortization was \$289,449 with a net book value of \$236,012.

There were also bond issue costs incurred with the Series 2009 Bonds in the amount of \$92,867 with a net book value at June 30, 2013 of \$74,926. In accordance with GASB Statement 65 these issued cost were reclassified as an expense (FY 2013 prior period adjustment). At June 30, 2014, the outstanding balances on the defeased bonds from the 2005 refunding are as follows:

In FY 2012, the City paid off the 2007 GEFA note with Winder-Barrow Industrial Building Authority Revenue Refunding Bonds, Series 2012. In connection with this refinance, the City recognized a book gain in the amount of \$1,348,088. This gain is being amortized over a 17 year 9 month period (the life of the Series 2012 bonds) using the straight line method. As of June 30, 2014, accumulated amortization was \$177,213 with a net book value of \$1,170,875.

There were also bond issue costs and bond insurance cost incurred with the Series 2012 Bonds in the amount of \$263,512 and \$100,322 respectively. In accordance with GASB Statement 65 the bond issued cost were reclassified as an expense (FY 2013 prior period adjustment). As of June 30, 2014, the accumulative amortization on the bond insurance was \$8,167 with a net book value of \$92,155. These costs have been deferred and are being amortized over the life of the bonds based on annual principal retired. At June 30, 2014, the outstanding balances on the paid off note from the 2012 refinancing are as follows:

2015	\$ 676,775
2016	705,402
2017	735,239
2018	766,339
2019	798,754
2020-2024	4,530,066
2025-2029	5,572,694
2030	414,171
Total	\$ 14,199,440

10-Water Fund Intergovernmental Receivable

On June 29, 2006, the City of Winder entered into an intergovernmental agreement with Barrow County, Georgia ("County") to sell 1,000,000 gallons per day of sewage treatment capacity rights at the City's Cedar Creek Wastewater Reclamation Facility for a total of \$10,416,000. The contract states that \$5,832,000 of the total is for immediate transfer and assignment of capacity to Barrow County from the City; therefore, the City has set up an intergovernmental receivable for this amount. This portion of the contract is to help fund the construction cost of the facility so the City is recognizing revenue. In FY 2007, the City recognized revenue of 20% (\$1,166,400) as a special item because the City provided the right for 200,000 gallons per day of the County's wastewater to enter the City's current wastewater treatment facility. In FY 2008, the City recognized the remaining \$4,665,600 as a special item due to the additional 800,000 gallons per day being available. The remaining balance of the contract (\$4,584,000) is a shared capacity charge and will be paid as the County collects tap fees of \$1,500 for each household equivalent. As the County collects and submits tap fees, the City will recognize this remaining revenue. As of June 30, 2014 the balance due the City on the shared capacity charge is \$4,503,000.

The Intergovernmental Receivable activity for the fiscal year ended June 30, 2014 is as follows:

	Balance					Balance	Due In
	06/30/2013	ase	De	crease	06/30/2014	FY 2015	
Barrow County							
Intergovernmental Receivable	\$3,293,271	\$	-	\$ (304,146)	\$2,989,125	\$ 161,627

A maturities schedule of the intergovernmental receivable is as follows:

			Total		
Fiscal Year		4.16%	Receivable		
Ending June 30	Principal	Interest	Per Year		
2015	\$ 161,627	\$ 124,348	\$ 285,975		
2016	168,351	117,624	285,975		
2017	175,354	110,621	285,975		
2018	182,649	103,326	285,975		
2019	190,247	95,728	285,975		
2020-2024	1,076,742	353,130	1,429,872		
2025-2028	1,034,155	109,743	1,143,898		
Totals	\$ 2,989,125	\$ 1,014,520	\$ 4,003,645		

11-Interfund Receivables, Payables and Transfers

Interfund balances at June 30, 2014, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. Excluding advances, the City expects to repay all interfund balances within one year.

The interfund receivables or payables as of June 30, 2014 are as follows:

	Interfund						
		Due To/	Due From/				
	Ad۱	ances From	Advances To				
Major Governmental Fund:				_			
General Fund	\$	2,094,518	\$	-			
Major Proprietary Fund:							
Water Fund		580,000		-			
Non Major Proprietary Fund:							
Environmental Protection		-		1,231,832			
Golf Fund		-		580,000			
Internal Service Funds:							
Building Fund		-		862,686			
Totals	\$	2,674,518	\$	2,674,518			

The Water Fund Advanced the Golf Fund \$600,000 for the purchase of the Chimneys Golf Course. The Golf Fund will repay the water fund \$20,000 a year for 30 years. The balance at June 30, 2014, is \$580,000.

The General Fund advanced the Environmental Protection Fund \$1,368,702 for past operating expenses. The Environmental Protection Fund will repay the General Fund \$136,870 for 10 years. The balance at June 30, 2014, is \$1,231,832.

Interfund transfers in (out) for the fiscal year ended June 30, 2014, are as follows:

Transfers are used to reclassify revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary operations.

12-Fund Balance in Governmental Funds

Fund balance information is used to identify the available resources to repay long-term debt, reduce property taxes, add new governmental programs, expand existing programs, or enhance the financial position of the City in accordance with policies established by the City Council.

The City of Winder established and will maintain classification of fund balance as defined herein in accordance with Governmental Accounting Standards Board statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy shall apply to the City's General Fund and all governmental funds and will become effective for the fiscal year ending June 30, 2011. Fund balance shall be composed of nonspendable, restricted, committed, assigned, and unassigned amounts, as defined herein.

Nonspendable Fund Balance – Amounts that are not in a spendable form, such as inventory, or will not be converted to cash in the next operating cycle, such as long-term notes receivable. Also, amounts that are legally or contractually required to remain intact, such as the corpus of a permanent fund.

Restricted Fund Balance – Amounts on which constraints have been placed by an external party, such as grantor, creditor, or laws or regulations of other governments. Also, amounts on which constraints have been placed by law through constitutional provisions or by enabling legislation and are legally enforceable by external parties. Restrictions may be changed or lifted only with the consent of the resource providers.

Committed Fund Balance – Amounts on which constraints have been placed by the City Council, the City's highest level decision-making authority, through the adoption of a resolution which includes the verbiage "committed for the purpose of". Commitments may only be changed or rescinded through the adoption of a subsequent resolution; the subsequent resolution shall refer to the original resolution by number.

Resolutions committing amounts must be adopted prior to the end of the fiscal year. However, the amount to commit must be determined within 60 days of the fiscal year-end.

Assigned Fund Balance – Amounts on which constraints have been placed by the City to use for a special purpose. The City Council may assign amounts through the adoption of a motion made during a public meeting of the Council. The City Council also authorizes the City Manager to assign amounts through a written memorandum.

Transfers to special revenue, capital projects, debt service, or permanent funds shall constitute assignments and shall be documented through the adoption of the City's operating budgets or subsequent budget amendments.

Assignments must be adopted prior to the end of the fiscal year; the amount assigned must also be determined prior to fiscal year-end.

Amounts appropriated to eliminate a projected deficit in the subsequent fiscal year's budget shall constitute assignments and be documented by adoption of the City's operating budgets.

Equity amounts reported in special revenue, capital projects, debt service, or permanent funds not otherwise classified as nonspendable, restricted, or committed should constitute assignments.

Unassigned Fund Balance – Equity amounts reported in the General Fund not otherwise classified as nonspendable, restricted, committed, or assigned. Unassigned amounts are the portion of fund balance that is available for any purpose. Governmental funds other than the General Fund shall not report positive unassigned fund balance.

HIEARCHY OF SPENDING

For the purpose of fund balance classification, the City considers restricted amounts spent first when expenditure is incurred for which both restricted and unrestricted fund balance is available. Furthermore,

the City considers the following spending order when expenditures are incurred for purposes of which the following unrestricted fund balance classifications are available:

- 1. Committed
- 2. Assigned
- 3. Unassigned

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. GASB Statement No. 54 requires that special revenue funds have restricted or committed proceeds of specific revenue sources that are expected to continue to comprise a substantial portion of the inflows reported in the fund. For this purpose, the City defines proceeds from significant revenue sources as a single or combination of restricted or committed inflows which are expected to comprise 35% of the total revenue and other financing sources of the special revenue fund.

The Finance Director shall be charged with maintaining a listing of all special revenue funds reported by the City. This listing shall include the purpose of the fund and the significant restricted or committed revenue stream(s) this is (are) the basis for the fund.

COMPLIANCE

Compliance with the provisions of this policy shall be reviewed as part of the annual budget process and the amounts of nonspendable, restricted, committed, assigned, and minimum General Fund unassigned amounts shall be determined during this process. Fund balance for all governmental funds shall be reported in accordance to GASB statement No. 54.

13-Retirement Plans

Defined Benefit Pension Plan

For employees hired prior to October 1, 2013, the City maintains a defined benefit pension plan (the City of Winder Retirement Plan) to provide retirement and disability benefits for all full-time general and uniformed personnel of the City. The Plan is a participating member of the Georgia Municipal Employees Benefit System (The Plan) (GMEBS), an agent multiple-employer pension employee retirement system (PERS) that acts as a common investment and administrative agent for Cities in the State of Georgia. An annual report that includes financial statements and required supplemental information is issued by GMEBS. A copy of the report may be obtained by writing to Georgia Municipal Association, 201 Pryor Street SW, Atlanta, Georgia 30303. The authority to participate in this plan rests with the City Council. The plan is closed to new entrants.

All full-time City employees are eligible to participate in the plan after one year of service. Employees are not required to contribute to the Plan. The City is required to contribute the amount necessary to fund the Plan, using the actuarial basis specified by the Plan. The Plan is subject to minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10).

Under the Plan, pension benefits vest after ten years of service. Benefits are based on the five highest year's average salary. Participants may retire at the earlier of age 65 with 5 years of service or age 55 with 30 years of service to receive normal benefit. Alternative early retirement is age 55 with 10 years of service. Benefits are payable for life and calculated using a formula equal to 2.00 percent of annual salary for employees with retirement dates before August 1, 2000 and after April 2, 2009 or 3.00 percent of annual salary for employees with retirements dates after August 1, 2000 and before April 1, 2009 which is then multiplied by the final average earnings (5 highest years average) and then multiplied by the amount of credited service. The plan also provides death benefits. These benefit provisions and all other requirements are established by the GMEBS Board of Trustees and the adoption agreement executed by the City.

As of January 1, 2014, employee membership data related to the pension plan was as follows:

Inactive Participants:		
Retiree and beneficiaries currently receiving be	nefits	90
Terminated employees entitled to benefits but r	not	
receiving benefits		45
	Total	135
Active Plan Participants:		
Vested		56
Nonvested		91
	Total	147
Total Number of Plan Participants		282

Data relating to the Plan for the past ten years is as follows:

Projected Inflation 3.50%

Asset Valuation Method – Sum of the actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 50% of market value for 2009, 44% of market value for 2010, 38% of market value for 2011, 32% of market value for 2012, 26% of market value for 2013, and 20% of market value for 2014 and later years.

Defined Contribution Plans

401 (a)

The 401(a) plan is a defined contribution plan administered by Security Benefit Life Insurance Company for all full-time employees not participating in the Defined Benefit Pension Plan. City Council has the authority to establish and amend the plan provisions as well as the contribution for the plan. The City contributes 3% of each employee's compensation each pay period and will match up to 3% of the employee's contribution to the 457 plan. Employees are eligible to participate on the first day of the month following ninety days of employment. Vesting for the initial 3% is graded as follows: 33% after one year, 66% after two years and fully vested after three years of service. The 3% the City plays towards matching is vested immediately. At June 30, 2014, there were 33 employees participating in the plan with total contributions of \$42,724.

457 Plan

The City offers a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all full time City employees (who work more than thirty hours per week) after the first ninety days of employment. The plan is funded through payroll deductions with the maximum contribution being 25% and a ceiling dollar amount of \$17,000 per year. The plan assets are invested, and administrated by public organizations unrelated to the City.

14-Other Postemployment Benefits

Plan Description

The City of Winder provides postemployment health care benefits to retirees through the City of Winder OPEB Plan, a defined benefit, single employer other postemployment benefit plan. This plan was established in accordance with the City Charter and State statues. The City contributes into a trust fund with Georgia Municipal Employees Benefit System (GMEBS), which is a service of Georgia Municipal Association (GMA), who administers the Plan.

City employees who have attained the age of 60 who are vested in the city's retirement plan are eligible to participate in the plan.

Health care coverage will continue for the employee at a cost of 50% of the billed premium until the employee is eligible for Medicare. Dependent coverage, if applicable, continues until the dependent or employee (whichever comes first) is eligible for Medicare or voluntarily coverage. All retirement benefits are reviewed and evaluated annually.

Current Membership is as follows:

Retirees and beneficiaries currently receiving benefits	21
Active Participants	154
Total Number of Participants	175

Funding Policy

The City pays part of the health insurance premiums for all retirees from City employment receiving a pension annuity earned through City services and participating in the City's health insurance coverage on a pay-as-you-go basis. The City paid approximately \$94,782 and was reimbursed by the retirees \$49,058 under this program for the fiscal year ended June 30, 2014. An additional \$123,600 represents the actuary's estimate of the City's indirect subsidy toward retiree coverage during FY 2014. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The City Council provides for the benefits and funding policy through City ordinance and maintains the authority to change the policy. The projection of benefits does not incorporate the potential effect of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.

Annual OPEB Cost (AOC) and Net OPEB Obligation

The City implemented GASB 45 in Fiscal Year 2009 and elected to report a zero net OPEB obligation at the beginning of the transition year. The City's annual postemployment benefit cost and net OPEB obligation for the plan as of and for the fiscal year ended June 30, 2014 using a 6.50% interest rate scenario were as follows:

Annual Required Contribution (ARC)	\$124,700
Interest on Net OPEB Obligation	14,300
Adjustment to ARC	(12,500)
Annual OPEB Cost	126,500
Contributions Made	(268,200)
Increase (Decrease) in Net OPEB Obligation	(141,700)
Net OPEB Obligation - Beginning of Year	220,100
Net OPEB Obligation - End of Year	\$ 78,400

The City's annual OPEB cost, the percentage of annual OPEB cost contributed during the fiscal year, and the net OPEB obligation at the end of the transition year for the City's post-retirement benefits plan were as follows:

					Percentage of			
Fiscal	Ann	ual OPEB	Α	ctual City	AOC	Net OPEB		
Year	CO	ST (AOC)	Co	ntribution	Contributed	Ok	ligation	
2009	\$	150,800	\$	48,800	32.36 %	\$	102,000	
2010		164,600		74,700	45.38		191,900	
2011		174,000		108,300	62.24		257,600	
2012		124,400		138,901	111.66		243,099	
2013		125,600		148,598	118.31		220,100	
2014		126,500		268,200	212.02		78,400	

Funded Status and Funding Progress

As of June 30, 2014, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$1,654,500 and the value of the actuarial assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,654,500.

2014		-		1,654,500	(1,654,500)	-	6,363,095	26.00

Actuarial Methods and Assumptions for OPEB Plans

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The more significant actuarial methods and assumptions used in the calculations of the annual OPEB cost, the annual required contribution, and the funded status and funding progress for the fiscal year ended June 30, 2014 are as follows:

Method/Assumptions	Retirement Program
Valuation Date	June 30, 2014
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Dollar, Closed
Average Remaining Period	30 Years
Asset Valuation Method	Market Value of Assets
Interest Rate	6.50%
Inflation Rate	2.50%
Medical Trend Rate	Medical Per Capita costs, Average Costs and premiums are assumed to increase 10.00% for Pre-Medicare coverage and Medicare Supplement. This rate decreases at a rate of 0.5% per year until an ultimate rate of 5.00% is reached.

15-Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City attorney the resolution of these matters will not have a material

adverse effect on the financial condition of the City. There were no known contingent liabilities that would materially affect the financial statements.

16-Related Organizations

The City Council is responsible for appointing various members of the boards of other organizations, but the City's accountability for these organizations do not extend beyond making the appointments. In addition, City officials serve on the boards of several organizations in which the City does not have a voting majority. Organizations related to the City in one or both of these manners include the following –

Housing Authority of the City of Winder Piedmont Regional Library Barrow County Board of Health Winder-Barrow Development Authority Winder Planning Board Winder-Barrow Industrial Building Authority Winder Tree Commission Historic Preservation Commission Public Facilities Authority

17-Joint Venture

Under Georgia law, the City, in conjunction with other cities and counties in the area, are members of the Northeast Georgia Regional Commission (RC) and is required to pay annual dues. During its year ended June 30, 2014, the City's dues were paid by Barrow County, which did not request reimbursement from the City. According to the RC, all dues are billed to the County and the management of the County determines if each municipality within the County should be billed for their pro-rata share of the dues. Membership in an RC is required by the official Code of Georgia Annotated (OCGA) Section 50-8-34 that provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from the following location:

Northeast Georgia Regional Commission 305 Research Drive Athens, Georgia 30605

18-Hotel/Motel Tax

The City levied and collects a 7% hotel/motel tax in accordance with OCGA 48-13-51 a 4.4. Collections for the fiscal year ended June 30, 2014, were \$78,667. The City expended all amounts required for the purpose of promoting tourism, conventions, and trade shows. The total amount of the tax expended for the purposes listed above for the fiscal year ended June 30, 2014, was \$66,006, or 83.9%. Of this amount \$22,922 was directly paid out to the Barrow County Chamber of Commerce. The City transferred \$11,917 to the Special Facilities Fund and \$31,167 to the City Festivals Fund for operations and advertising.

19-Special Local Option Sales Tax

Barrow County collects SPLOST funds for the City. In connection therewith, the County collects the revenues and remits the funds to the City on a monthly basis. The City expends the funds for streets, recreation facilities, downtown redevelopment projects, streetscape, and sewer facilities. All such transactions are reflected in the Capital Projects Funds.

20-Indirect Costs Allocations

Indirect expenses of general government and administrative support are fully allocated to the City's operational departments and funds. The purpose of the indirect costs allocations is to charge the operating departments and funds for administrative support services. Costs are allocated based on actual expenditure by functional activity. The following table presents the costs allocated:

Indirect Costs Allocations For The Year Ended June 30, 2014

Costs for Allocation	
Administrative	\$ 2,340,253
Housing and Development	140,977
Total	\$ 2,481,230
Distribution of Indirect Costs	
Water and Sewer Fund	\$ 727,622
Gas Fund	738,873
Solid Waste Management Fund	10,214
Special Facilities Fund	41,237
Environmental Protection Fund	10,806
Golf Fund	63,729
Grant Fund	975
TV Station	9,340
General Fund	
Administrative	22,482
Public Safety	632,905
Public Works	190,103
Housing and Development	8,846
Judicial	24,098
Total	\$ 2,481,230

21-Negative Net Position

The Environmental Protection Services (EPS) Fund reported negative net position of \$1,133,522 at June 30, 2014. This fund is responsible for fulfilling state mandates and requirements to protect the water quality of the state's waterways. Management is currently evaluating options to eliminate the negative net position of the fund.

22-Reclassification of Capital Projects Funds-SPLOST

In previous years, management reported SPLOST projects associated with multiple SPLOST referendums in a single capital project fund. During 2014, management elected to begin reporting activity associated with each referendum in a separate capital project fund. To facilitate this change, management has reclassified the ending 2013 fund balance as follows:

	As			
	Previously	As Reci	lassified	
	Stated	SPLOST	SPLOST	
	SPLOST	2005	2012	Total
2013 Ending Fund Balance	\$ 739,499	\$ 160,981	\$ 578,518	\$ 739,499

Notes to the Required Supplemental Information

1-Budgetary Information

The City adopted annual budgets for the 2014 fiscal year for the General Fund and the annually-budgeted Special Revenue Funds. Budgets are adopted on a basis consistent with generally accepted accounting principles. During the month of May, the Finance Department prepares a draft budget for the City Administrator. After reviewing the draft budget and meeting with the departments, the City Administrator and Finance staff prepare a Proposed Budget as well as a five year Capital Improvement Plan. The Mayor presents both to City Council in May. The Council conducts public hearings in May and June, and adopts budgeted revenues and appropriations for the upcoming fiscal year by resolution no later than June 30, the close of the City's fiscal year.

The appropriated budget is prepared by fund, function and department. The Budget Officer may make transfers of appropriations within a department. Transfers between departments and subsequent budgetary amendments require the approval of the City Council. The department is the legal level of control. The legal level of control is the level at which expenditures may not legally exceed the budget without approval by the City Council. Appropriations lapse at year-end. Budgeted amounts shown on the financial statements are as adopted by the City Council.

Significant departures must be in excess of \$75,000 and more than 4.0% of the budgeted amount, within each department. The City had no significant departures from the total budgeted amounts in the General Fund.

CITY OF WINDER, GEORGIA COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended

June 30, 2014

Statistical Section

Statistical Section

Statistical tables differ from financial statements in that they usually cover more than one fiscal year and may present non-accounting data, un-audited data, projections and the like.

The objective of the statistical section information is to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to understand and assess a government's economic condition. Where data is readily available, the City has presented data retroactively as well as for the current year. Some schedules are presented current year and prior year only as data is not readily available. The goal for most schedules is to build a 10 year history. Changes in prior year data reflect either more accurate information obtained after the FY 2010 Financials were released, actual data available to replace estimated data, or the availability of updated estimates and forecasts.

The statistical section information is presented in the following five categories:

Financial Trends Information:

Financial trends information is intended to assist the user in understanding and assessing how a government's financial position has changed over time.

Schedules in this category are:

Net Position by Component Changes in Net Position Fund Balances – Governmental Funds Changes in Fund Balances – Governmental Funds

Revenue Capacity Information:

Revenue capacity information is intended to assist users in understanding and assessing the factors affecting a government's ability to generate its own-source revenues. Note: Although the City of Winder has not assessed a property tax since 1977 (other than fire services), the City has elected to present assessed and fair market value of property in the City, since this is a significant potential future revenue source for the City. Existing property tax rates (imposed by other entities) are also presented to show the tax burden being carried by City residents.

The Local Option Sales Tax is imposed county wide, collected by the State of Georgia, and then disbursed by the State according to an agreed upon formula. The sales tax is the largest source of general fund revenue, therefore, the City has elected to present a sales and use tax rate schedule which also includes city sales tax proceeds for the last ten years. Because of the importance of this income source for all political jurisdictions in Barrow County, the City has also elected to include retail sales information as well as other Business Pattern Data from the U.S. Economic Census.

Utility sales are the primary sources of income for the City, therefore, the City has elected to present several alternative schedules in these areas to further assist users in understanding this important aspect of City finances. For example, in lieu of the schedule of largest taxpayers, the City has chosen to present its largest gas, water, and sewer users.

Schedules in this category are:

Assessed and Fair Market Value of Taxable Property Property Tax Millage Rates – Direct and Overlapping Sales and Use Taxes – Direct and Overlapping Comparison of Retail Trade Sector –Barrow County

Water and Sewer Rates/Water Sold by Customer Type Water and Sewer Connection/Tap Fees Largest Water and Sewer Customers Gas Rates/Gas Sold by Customer Type Largest Natural Gas Customers

Debt Capacity Information:

Debt Capacity information is intended to assist users in understanding and assessing a government's debt and its ability to issue debt. Note: The City of Winder has no outstanding General Bonded Debt. Therefore, schedules dealing specifically with this type of debt have been omitted.

Schedules in this category are:

Direct and Overlapping Debt Ratio of Outstanding Debt by Type Statement of Legal Debt Margin Statement of Pledged Revenue Coverage

Demographic and Economic Information:

Demographic and economic information is intend (1) to assist users in understanding the socioeconomic environment within which a government operates and (2) to provide information that facilitates comparisons of financial statement information over time and among governments.

Schedules in this category are:

Demographic and Economic Statistics Schedule, which includes population, total personal income, per capita income and unemployment rate.

Principal Employers – 2013 and 2005

Operating Information:

Operating information is intended to provide contextual information about a government's operation and resources to assist readers in using financial statement information to understand and assess a government's economic condition.

Schedules in this category are:

Full Time Equivalent City Government Employees by Function/Program Operating Indicators by Function/Program Capital Assets Statistics by Function/Program

Maintenance Shop Department became an Internal Service Fund in FY 2006. Judicial and Housing and Development Departments became a separate function in FY 2008. They were originally in General Government.

^{***} Facility Maintenance was included in General Government beginning in FY 2008.

^{****} Contributions have been included in Miscellaneous and Other for years prior to FY 2009.

+ 2012 balances have been restated to reflect the cumulative effect of applying GASB 65.

⁽¹⁾ The variations on General Sales Tax, Selective Sales Tax, and Other Tax reflect a change in the chart of accounts and definitions of accounts mandated by the State of Georgia.

⁽²⁾ In FY 2011, the City presented Fire District Taxes and Street Light Assessment's in a separate line rather than combining them and classifying them as "Other Taxes". FY 2007-2010 has been adjusted to show accurate trending data.

⁽³⁾ The special item for FY 2007 and 2008 was wastewater capacity rights sold to Barrow County.

^{+ 2012} balances have been restated to reflect the cumulative effect of applying GASB 65.

Note: The City of Winder has not assessed a property tax since 1977 except for fire services. In FY 2014, Barrow County didn't renew the Fire District IGA with the City of Winder so the millage must be reported as City of Winder.

Millage rates are those in effect at the end of the City's fiscal year. More current information will be added if available by publication date.

Note: All sales taxes are levied county-wide and collected by the State of Georgia. The State then distributes the various local option sales taxes to the local jurisdictions. There is no sales tax levied directly by the City of Winder. The City

receives a portion of LOST based on a negotiated distribution formula. City proceeds are reported on a fiscal year basis

and rounded. Sales tax rates are levied on a calendar year basis.

LOST: Local Option Sales Tax. Distribution rates among the various governments have been agreed to in an

intergovernmental agreement.

SPLOST: Special Purpose Local Option Sales Tax. Projects are approved through referendum and revenues may be shared

through intergovernmental agreements.

ELOST: Education Local Option Sales Tax. All proceeds go to the Barrow County School System.

Total	12,540	12,860	13,379	13,875

^{**}Average number of accounts is derived by dividing the total number of customers billed for the year by 12. This figure represents the equivalent number of "full time" customers or average number of customers on the systems all 12 months of the fiscal year. Commercial accounts may include more than one customer. Many commercial accounts have single meters for multiple commercial rental space. Small commercial accounts with residential size meters, including home based businesses may be included in residential totals.

Average Number of Customers by Category**								
Residential/Small Commercial Medium/Large Commercial Interruptible (Industrial): Total		4,225 54 6 4,285		4,572 54 6 4,632		4,847 54 6 4,907		4,963 55 6 5,024
		-,=50	_	.,	_	-,,,,,	_	

Note: Any increase or decrease in the base cost of natural gas is automatically passed on to the customer on a monthly basis, however the distribution charge remains relatively constant. The gas flat rate minimum increased to \$13.63 for family residential with a typical meter, \$14.65 for a small commercial meter, \$43.48 for a medium commercial meter and \$67.62 for the large commercial meters per month effective 3/1/2013

Source: City of Winder Gas Department

^{*} Because the base cost of natural gas can fluctuate substantially on a monthly basis, the City has chosen to present its distribution charge or "mark up". This amount is added to the base cost of natural gas each month.

^{**} Average number of customers is derived by dividing the total number of customers billed for the year by 12. This figure represents the equivalent number of "full time" customers or average number of customers on the system all 12 months of the fiscal year.

Debt Capacity Statistical Section

City of Winder, Georgia Statistical Section – Debt Capacity Direct and Overlapping Debt June 30, 2014

Governmental Unit	Debt Outstandir		Estimated Percentage Applicable	Estimated Share of Overlapping Debt		
Barrow County Schools:						
For New Construction/expansion/renovation						
General Obligation Bonds	\$	71,805,000	20.50%	\$	14,720,025	
Capital Leases		533,715	21.02%		112,187	
Total Barrow County Schools						
Overlapping Debt					14,832,212	
Barrow County Government:						
Debt Repaid With Property Taxes						
General Obligation Bonds	\$	51,275,000	20.50%		10,511,375	
Contracts Payable		28,857,461	21.02%		6,065,838	
Capital Leases/Other		4,248,447	21.02%		893,024	
Total Barrow County Government					· · · · · · · · · · · · · · · · · · ·	
Overlapping Debt					17,470,237	
Total Overlapping Debt					32,302,449	
City of Winder:						
Direct Debt					741,998	
Total Direct and Overlapping Debt				\$	33,044,447	

Notes: For debt repaid with property taxes, the percentage of overlapping debt is estimated using the ratio of the City's assessed taxable value as a percentage of the county digest of total assessed taxable value (21.02%).

For debt paid by sales taxes, the percentage of overlapping debt is estimated using 2013 Census population estimates for the City as a percentage of the total County 2013 Census estimated population (20.5%).

For debt where sales tax revenues are used but the debt is a general obligation of the taxpayer (due to potential sales tax shortfalls or future sales tax referendums not approved) an average of the above percentages was used (20.5%). This is the case with the Barrow County School System and most large projects for Barrow County.

Notes: Operational indicators not available for certain administrative functions nor were they readily available in this format for years prior to FY 2006.

Major street paving projects are contracted to privately-owned paving companies.

Effective April 1, 2007, the City of Winder contracted with a private operator to collect and dispose of garbage. However, the City continues to bill and collect for garbage collection.

CITY OF WINDER, GEORGIA COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended

June 30, 2014

Report of Independent Certified Public Accountant on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of City Council City of Winder, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Winder, Georgia as of and for the year ended June 30, 2014 and the related notes to the financial statements, which collectively comprise the City of Winder, Georgia's basic financial statements, and have issued our report thereon dated December 18, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Winder, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Winder, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Winder, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

143

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Winder, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
